FISCAL NOTE ANALYSIS

STATE OF ALASKA
2025 LEGISLATIVE SESSION

BILL NO. HB049

Analysis

HB049 raises the minimum legal age to purchase tobacco and nicotine products from 19 to 21. The bill reduces the fine for underage possession of tobacco or nicotine from \$500 to \$300, with an option for the court to refer the person in possession to a tobacco education program. The bill retains the exception for electronic cigarettes used for tobacco cessation, if approved by the Food and Drug Administration (FDA) as a cessation device.

The bill creates a new sales tax structure for electronic smoking products, which are not currently taxed. The bill prohibits online sales of tobacco products to individuals for personal use, likely to address current inconsistencies in state tobacco tax collection. The definition of electronic smoking products would implement a 25 percent sales tax on closed electronic smoking products and vapor products.

This bill removes the Tobacco Use Education and Cessation Fund (TUECF) as a special account within the General Fund and establishes TUECF as its own fund within the state treasury. There is no direct fiscal impact from this legislation to either fund.

The bill sets an effective date of January 1, 2026; sections related to sales, shipping, licensing, and tax have an effective date of January 1, 2027.

There is limited programmatic impact and no fiscal impact is foreseen; therefore this is a zero dollar fiscal note.
