Date: Friday, April 04, 2025 7:32:49 PM

Dear Senate Finance Committee members:

In this time period of little money to go around for all the things we need in this state I support bringing in new revenue sources. SB 92 will rectify a mistake made years ago by restructuring Alaska's corporate income tax to equally apply the tax to all companies in Alaska including S corporations. The potential \$100-150 million in annual revenue would go a long way and providing money to solve our educational finance situation. Please vote for this bill. I think it's a good way to help resolve some of our finance issues.

Respectfully,
Nina Faust
